Info

"Krav in Hebrew means Combat and Kravi is Combatant or Warrior. As a martial artist teaching Krav Maga and Krav Panim El Panim, I wanted to design a warrior knife. My Son Ishai is a computer designer and together we designed the "warrior" as an easy carry knife, with a legal blade to fit anyone for daily life, for the most basic needs. As we say "the best knife is the one you have in your hand when you need it."

PVD

(Physical Vapor Deposition) is a variety of vacuum deposition methods used to deposit thin films by the condensation of a vaporized form of the desired film material onto various workpiece surface. The coating method involves purely physical process such as high temperature vacuum evaporation with subsequent condensation.
