

Fox / Folding Knives

Chiroptera Karambit

Design by Richard Derespina

cod. **FX-590**

Blade steel: N690Co stainless steel

Hardness: HRC 58-60

Blade Coating: Cerakote™ Black

Handle: G10 black

Clip: stainless steel 420J2B - reversible

Back ring: aircraft aluminum T6-6082

Blade length: 6.5 cm - 2.56"

Overall length: 15.5 cm - 6.10"

Blade thickness: 3 mm - 0.12"

Weight: 110 gr - 3.88 oz

Info

"I based this Karambit's blade profile on a Bat's Wing (Chiroptera). The blade like the Bat's wing is an extension of the user. Humans, however, must train to become comfortable with the blade, thereby creating the necessary muscle memory for instinctive responses."

Derespina

Blade Coating: **Cerakote™ Black**

Cerakote™

It is a ceramic based finish that can be applied to metals, enhance a number of physical performance properties including abrasion/wear resistance, corrosion resistance, chemical resistance, impact strength and hardness.

Blade steel: **N690Co stainless steel**
