Info

"The Recon has the basic features for a good combat knife: agility, power and lethality in trained hands. Its special shape facilitates fluidity and harmony in the body/blade movement without fatiguing the hand that wields it. It is an agile and comfortable knife in every grip (ice pick, sabre grip, slash,...). The choice of Kydex sheath with its retention system allows a safe use in all conditions (tactical/combat, hunting, survival, rescue)."
