In collaboration with Prof. Antonio G. G. Merendoni
"To celebrate the 100th anniversary of the foundation of the Italian Assault units, I Gloriosi Arditi (1917-2017), FOX has made a reproduction of the first model of dagger supplied to them, keeping the similarity in a current modern version made with quality materials, combining history and excellence of Italian production in honor of the real heroes of the Great War, those who gave birth to the first modern special forces in the world and the first to specialize with the dagger fencing methods for individual combat."
