

Fox / Fixed Blade

 **Ferox**

Design by Tommaso Rumici

cod. **FX-630 B**

Blade Steel: N690Co stainless steel

Hardness: HRC 58-60

Blade Coating: black Idroglider

Handle: G10 black

Blade Length: 9 cm - 3.54"

Overall Length: 21 cm - 8.27"

Blade Thickness: 4 mm - 0.16"

Weight: 132 gr - 4.66 oz

Info

The Ferox is a light fixed blade of small dimensions, which can remember the American school Bird & Trout, it is easy to carry with you, even on those occasions where you do not expect to need a knife. The straight handle has two G10 scales with nine grooves, occupied by as many o-rings. In addition to increasing the grip, the rubber rings serve to retain two hexagonal bits, of standard size, in their respective housings. By inserting them in the magnetic hole at the end of the handle, the user has two screwdrivers available, one flat head and one Philips, in that way he does not risk to damage the tip of the knife by trying to use it as such.

Blade Coating: **black Idroglider**

Idroglider

Special non stick coating made of PTFE that ensures long life and rust resistance.

Blade Steel: **N690Co stainless steel**
