

Fox / Folding Knives

Core

Design by Jesper Voxnaes

cod. **FX-604 CF**

Blade Steel: Elmax stainless steel

Hardness: HRC 57-59

Blade Coating: Physical Vapor Deposition (PVD)

Handle: carbon fiber

Clip: wireclip - reversible

Spacer: black anodized aluminium

Blade Length: 8 cm - 3.15"

Overall Length: 19 cm - 7.48"

Blade Thickness: 4 mm - 0.16"

Weight: 135 gr - 4.76 oz

Info

"The Core is a stout folder, light for its size and with a broad blade for hard work. It is designed to be your go-to folder for getting work done in your shop, in the outdoors or even out hunting. The flipper makes fast deployment easy and at the same time you have the option of using the opening hole when wearing thick gloves or in situations where you need to keep a solid grip on your knife while opening it."

Jesper Voxnaes

Blade Coating: **Physical Vapor Deposition (PVD)**

PVD

(Physical Vapor Deposition) is a variety of vacuum deposition methods used to deposit thin films by the condensation of a vaporized form of the desired film material onto various workpiece surface. The coating method involves purely physical process such as high temperature vacuum evaporation with subsequent condensation.

Blade Steel: **Elmax stainless steel**
