

FKMD / Folding knives
Golok Hitam Machete Fighting Blade

Design by **Giorgio Danese Tecnoreef**

cod. **FX-9CM02B**

Blade Steel: N690Co stainless steel

Hardness: HRC 58-60

Blade Coating: Physical Vapor Deposition Gun Met

Handle: FORPRENE® black

Blade Length: 22.5 cm - 8.86"

Overall Length: 36 cm - 14.17"

Blade Thickness: 6 mm - 0.24"

Weight: 385 gr - 13.58 oz

Info

The sheath has been designed under the supervision of the Italian Special Forces, to be carried in several different positions. It can be fixed on a belt or on a backpack; it can also be fixed on any MOLLE system. The sheath also has two extra NYLON webbing straps to carrying it as a backpack system.

Blade Coating: Physical Vapor Deposition Gun Met

(Physical Vapor Deposition) is a variety of vacuum deposition methods used to deposit thin films by the condensation of a vaporized form of the desired film material onto various workpiece surface. The coating method involves purely physical process such as high temperature vacuum evaporation with subsequent condensation.

Blade Steel: N690Co stainless steel
