TRIBAL K
Design by Doug Marcaida

cod. **FX-803 TiPVD**

Blade Steel: M390 stainless steel
Blade Coating: Physical Vapor Deposition (PVD)
Handle: titanium bronze
Blade Length: 7.7 cm - 3.03"
Overall Length: 14.8 cm - 5.83"
Blade Thickness: 3 mm - 0.12"
Weight: 128 gr - 4.52 oz

Info

Tribal K is the new karambit designed by Doug Marcaida, knife designer and judge of "Forged in Fire". Available in fixed or folding blade. Its design is characterized by the shape of the very curved blade where, on the back, there is a serration that returns a cut similar to that of a saw.

The handle is engraved with recurring triangular motifs in Philippine Martial Arts.

Blade Coating: Physical Vapor Deposition (PVD)

PVD

(Physical Vapor Deposition) is a variety of vacuum deposition methods used to deposit thin films by the condensation of a vaporized form of the desired film material onto various workpiece surface. The coating method involves purely physical process such as high temperature vacuum evaporation with subsequent condensation.

Blade Steel: M390 stainless steel

Acciaio Steel	Carbonio Carbon	Cromo Chromium	Cobalto Cobalt	Azoto Nitrogen	Manganese Manganese	Molibdeno Molybdeno	Nichel Nickel	Fosforo Phosphorous	Silicio Silicon	Zolfo Sulfur	Tungsteno Tungst	Van Van
