The Suru series is enriched with new versions of the 2023 edition: a line of five knives with liner lock opening system and M398 blade.

The version with the carbon fiber handle is enriched with bronze anodized titanium screws that enhance even more the 3K Twill pattern, those with the Micarta handle, on the other hand, stand out for the different colors: burgundy, black, green and natural available with different blade finishes.

Blade Coating: stone washed PVD**PVD**

(Physical Vapor Deposition) is a variety of vacuum deposition methods used to deposit thin films by the condensation of a vaporized form of the desired film material onto various workpiece surface. The coating method involves purely physical process such as high temperature vacuum evaporation with subsequent condensation.

Blade Steel: M398 Stainless steel
