YARU

Design by Jesper Voxnæs

cod. **FX-527LI MBU**

Blade Steel: M398 Stainless steel
Blade Coating: stone washed PVD
Handle: Micarta burgundy
Blade Length: 7 cm - 2.76"
Overall Length: 17.5 cm - 6.89"
Blade Thickness: 4 mm - 0.16"
Weight: 97 gr - 3.42 oz

Info

The Yaru was designed to be used more intensively than the more compact Suru.
The idea was to create a functional knife that conveyed solidity during use and could perform as well as a small fixed blade.
The 2023 edition consisting of five knives with an M398 blade was also created for this line.

Blade Coating: **stone washed PVD**

PVD
(Physical Vapor Deposition) is a variety of vacuum deposition methods used to deposit thin films by the condensation of a vaporized form of the desired film material onto various workpiece surface. The coating method involves purely physical process such as high temperature vacuum evaporation with subsequent condensation.

Blade Steel: **M398 Stainless steel**
