This automatic folding knife is a reinterpretation of the previous model, renewed materials and colors making this new version more modern and attractive.

Two types of blade both made of N690Co steel with hardness of HRC 58-60.

Clip point and spear point blade with two finish variants: black idroglider, stone washed and OD green handle and Black PVD with black handle.

For both variants, the handle is anodized aluminum.

A tactical/Edc knife also ideal for hiking and adventure.

Blade Coating: **Physical Vapor Deposition (PVD)**

PVD

(Physical Vapor Deposition) is a variety of vacuum deposition methods used to deposit thin films by the condensation of a vaporized form of the desired film material onto various workpiece surface. The coating method involves purely physical process such as high temperature vacuum evaporation with subsequent condensation.

Blade Steel: **N690Co stainless steel**
