⋈ FOX RESCUE Emergency Tool

cod. **640/1**

Blade Steel: AISI 301 diving stainless steel

Hardness: HRC 54-56

Handle: FRN NYLON® reinforced fiberglass - red

Overall Length: 14 cm - 5.51"

Weight: 55 gr - 1.94 oz

Info

The rescue emergency tool has been created to can give a very simple and lightfast response item that can be used in the case of immediately needing to cut ropes, parachute cord, seat belt, fishing nets and so on.

The sheath has on the backside a clip that allows putting the tool in different positions in combat jacket, and in diving equipment, backpacks loops and so on. With the hole in the front can be used with a lanyard like a neck knife too.

The sheath can be personalized with laser engraving or screen printing.
