Info

N.E.R.O. is the new project that we have developed with Italian Progetti Design team, the new project start from the basic idea to create a tool that can be easy to handling that can be light in weight and with high performances. We have selected the best materials for manufacture these knives, the blades are made with cobalt vanadium steel N690Co then with a vacuum tempering process arriving at HRC 59-60 of hardness. The handles are made with G10 coarse texture CNC machined and well contoured to can create a smooth surface with a very high grip.

Blade Coating**: black Idroglider**

Idroglider
Special non stick coating made of PTFE that ensures long life and rust resistance.

Blade Steel**: N690Co stainless steel**
